

NUIX DISCOVER FOR GOVERNMENT

Remove doubt from your discovery process

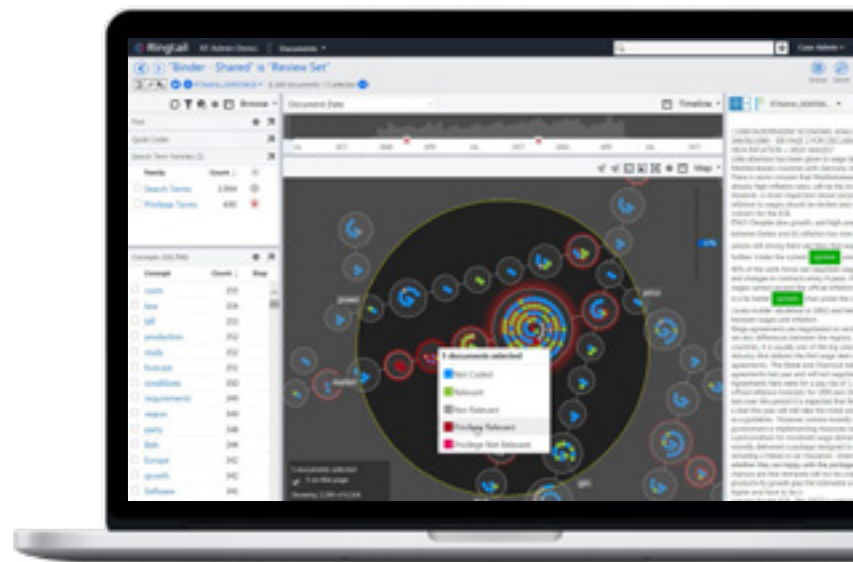

Nuix Discover delivers end-to-end eDiscovery without compromise. Nuix Discover combines the world's leading eDiscovery processing, review, analytics, and predictive coding in one software solution to improve your eDiscovery, investigation, and Freedom of Information Act (FOIA) request processes.

Government agencies must access records for many reasons, often to meet court-ordered deadlines or regulatory obligations. The process, however, is the same whether it's answering a request for information or responding to a legal matter. In the end, you need to find the facts fast and trust your results.

THE NUIX ADVANTAGE

- **Amazingly fast review.** Nuix Discover's intuitive user interface and intelligent automation capabilities allow legal teams to dramatically improve the speed and quality of document review while delivering profound time and cost savings.
- **Better early case assessment and investigation.** The software's integrated analytics will transform your early case assessment projects from one-dimensional keyword searching and hit counts to multidimensional visual analysis of concepts, custodians, and critical data points.
- **Greater control and management of government cases.** Nuix Discover gives you the solution to improve the management and control of your cases, helping you reduce case backlog, stabilize budgets, speed up time to production, and keep sensitive information secure.

Nuix Discover's intuitive user interface allows reviewers to complete each task with fewer clicks.

GET STARTED SOONER

With processing, analysis, review, and production fully integrated into Nuix Discover, you can quickly ingest data and start reviewing in minutes—no load fees, no exports, and a full portfolio of analytics and visualizations.

IMPROVE EARLY CASE ASSESSMENT

Nuix Discover reduces the complexity and workload of early case assessments. It wraps the power of concept clustering, visual review, and intelligent workflows into an intuitive user interface that promotes your initial mastery of any matter while securing sensitive data.

BETTER PROCESSING = BETTER REVIEW

With Nuix Discover, you don't have to worry about the other side having better data or surprising you with evidence you've never seen. You'll never miss a shred of evidence using our industry-leading processing, analysis, and review capabilities.

APPLY VISUAL ANALYTICS AND PREDICTIVE CODING

Incorporate analytics into your everyday workflows to figure out what's going on and define your case strategy. Industry-best models for clustering, mapping, and graphing distill the whole case into 'a-ha' moments, enabling you to get to the answers faster.

SCALE SEAMLESSLY FROM A SINGLE PST TO 100 MILLION DOCUMENTS

Nuix Discover is designed for scalability in data volumes and number of users. No matter how big or small the case, you can automate the way information is processed, organized, and presented to reduce operational costs and simplify hand-offs.

CALL THE SHOTS

Manage the eDiscovery process end to end with full control over your data and workflow, including self-service case set-up and administration. Even for the smallest matters, you get all the analytics, review efficiencies, and production capabilities at your fingertips.

Nuix (www.nuix.com, ASX:NXL) creates innovative software that empowers organizations to simply and quickly find the truth from any data in a digital world. We are a passionate and talented team, delighting our customers with software that transforms data into actionable intelligence and helps them overcome the challenges of litigation, investigation, governance, risk and compliance.
